### A SIDELIGHT ON DIVORCE

By DOROTHY DIX.

The World's Highest Paid Woman Writer,

Most, intelligent people have come of them. People with barrels of money set no enjoyment out of spending it. Nothing bores like a perpetual round of pleasure. We pray for rain after a long succession of sunshiny the cankering sore in a life in order to save it, but just as surgery is not aniways an infallible cure for discases, so divorce is not a never-failing remedy for domestic misery.

Someticus divorce means jumping out of the frying pan into the fire, as the homely old phrase goes, and a man and a woman who have been miserable together in matrimony find themselves still more wretched after they are parted.

After all, perhaps one gets attached to one's sparring partner and feels lost when deprived of the enemy with whom one has fought for years.

This is particularly the case with women, who are complements in the fire of the sum of the fact of the faults rub us raw. But when we get a way from them we get a clearer perspective and we see that whom one has fought for years.

This is particularly the case with women, who are complements in

whom one has fought for years.

This is particularly the case with women, who are complainants in more than three-fourths of the divorce actions and who find out in the majority of cases that their decrees absolute are boomerangs that annihilate them and that even a very indifferent husband may be better than no husband at all.

Without doubt men have the same the women with a difficult situation. The other day I met an unhappy woman who said to "Two years ago I divorced my husband because of an affair he had with another woman. I was mad with jealousy and I felt that I could never forgive him; I hated him, and all I wanted to do was to take my children and get as far from him as possible. I therefore the property of the country of the country in the country of than no husband at all.

Without doubt men have the same experience, for there is no denying be a cure for the agony that was that with all its faults, its draw eating my heart out and that once backs, even its martyrdom, matri-I was free from my husband I would

People pity me as a divorce and I can see that even my family and my the baby, instead of for pleasure; his friends who ufged me on to get a eyes may have wearled of the sight of a fat old wife and turned longingly by my husband, consider me a burden toward sylph-like chickens, but that on them.

toward sylph-like chickens, but that on them, is while he is still bound hand and "Believe me, if I were confronted while he is still bound hand and selleve me, if I were confronted foot in the holy estate.

With the same problem today there would be no divorce for me. I would him and he soon finds that matrimony stick by my home and my place in tamed and domesticated creature who has done its deadly work. He is a society and I'd shut my eyes to my tamed and domesticated creature who

tamed and domesticated creature who has learned to eat out of a wife's hand and he is lost without it.

There is no thrill in staying out at night when nobody cares whether you stay or not. What's the use of making money when a man has no one of his own to spend it on? Better even is the nagging of an nonest, faithful, fat old wife than the jollying of the painted lips of the sirens who work a man for all he is worth and from cause she is neither maid, wife nor cause she is neither maid, wife nor man for all he is worth and from cause she is neither maid, wife nor whom he soon turns in disgust.

Thus it happens that thousands of married couples who thought they could not live with each other find that brings people to their senses and

could not live with each other find that they cannot live without each other, and it is a pity that there is not some half way station in the divorce proceedings where the law could offer a husband and wife a chance to take back all the charges they have made against each other, and kiss and make it up.

The thing that's the matter with matrimony after all is monotony. We try to run it as a continuous performance, with never a let up or a break in it, with the same face across the table at every meal, listening to the same line of conversation three hundred and sixty days a year, rasped by the same faults, weaknesses, peculiarities, habits, and it gets upon our nerves.
